Family STEAM Night

St. Symphorosa School

April 29th, 2025

6 - 8 PM

Join us for an exciting hands-on STEAM experience with TinkRworks—open to all St. Symphorosa students and families from Kindergarten through 8th grade!

Explore the world of smart technology and self-expression with a color-changing light box that plays music. Participants will assemble their very own Smart Lamp from scratch, including installing electronics and personalizing it with custom programming and art.

Questions? Contact Dr. Kathy Berry at kberry@stsymsschool.org
